

The Picture Program

The purpose of the Picture Program is to acquaint the Student's at St. Joseph School with a variety of prominent artists and styles of art, and to teach them the terms they need to be able to evaluate and appreciate works of art as they encounter the. Our presenters for kindergarten through sixth grade are parent volunteers. The students in seventh and eighth grade volunteer to present pictures to their classmates. All of our volunteers are aided in their research and preparation by another parent volunteer.

For our presentations, we use poster-sized reproductions from different collections:

- Shorewood Collection prints (mounted on wood, brief descriptions on back)
- Art in Action: Enrichment Program I (teacher's manual available in St. Joseph School Library)
- Art in Action: Enrichment Program II (teacher's manual available in St. Joseph School Library)

The prints are kept in the St. Joseph School Library and our local public libraries. The following tables outline the picture assignments for each grade level. Links are included for each picture, but you may want to look for other sources to help generate activities or discussions to have with the students.

The Picture Program

Kindergarten

MONTH	TITLE	ARTIST	SOURCE AND #
